

I requested that Sgt Williams respond our location and attempt to contact an onsite manager for a key to the apartment.

While waiting for Sgt Williams to arrive on scene, I heard Hanson yelling continually in the apartment.

Officer Wesel told on scene officers that Hanson had fallen down and requested that we expedite our entry into the apartment.

Sgt Selby attempted to break down the front door with her shoulder, but was unable to gain access to the apartment, as it was secured with a dead bolt lock.

I attempted two times with my shoulder, and was able to gain entry into the apartment after kicking the door two times.

Upon entry into the apartment, I verbally announced "Police Department" and attempted to locate Hanson.

I saw several knives in various locations in the apartment while attempting to locate Hanson.

I located Hanson lying in a utility closet adjacent to the kitchen.

I yelled to Hanson to show me his hands. Hanson did not immediately respond. I again yelled at Hanson to show me his hands.

Hanson showed me his hands and slowly started to get up. I yelled at Hanson to stay on the ground. Hanson yelled something similar to "fuck you" and got up and started advancing aggressively towards Sgt Selby, Officer Wesel and myself. While Hanson was advancing I yelled at him to get on the ground. When Hanson got approximately 6 feet from me I deployed the Taser M26 stun device on Hanson.

I saw Hanson tense up and fall towards the ground and lay on his side. After approximately 3-4 seconds of the Taser being deployed, I disengaged the power on the Taser. Hanson became compliant at this point.

Sgt Selby assisted me by placing Hanson in handcuffs.

I called for Ashland Fire and Rescue to respond to assist in the probe removal from Hanson.

While awaiting the arrival of Ashland Fire and Rescue, I heard Hanson say "you should have just shot me, not Tased me."

While Sgt Selby was talking to Hanson, Hanson was occasionally regurgitating a blue in color liquid.

Ashland Fire and Rescue arrived on scene and started tending to Hanson.
